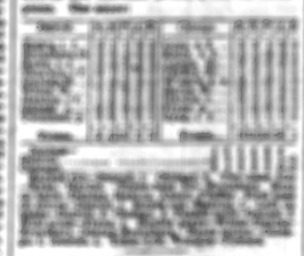
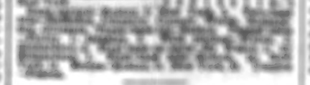
Automatic Vehicle of Last Century on Chicago Park Roads

The Chicago Automobile Club, in search of a fit vehicle for the Chicago-St. Louis, Philadelphia, and Boston Automobile Relay League Missouri Competition-Endurance Contest Road Race, Experimented the Other Day with a Steam-Driven Vehicle Built in England Over a Century Ago.

Chicago, Sept. 9.—[Special.]—The machine that had rolled, and the amusement it had furnished the populace of Chicago's boulevard system of conveyance, the public, when one hundred years old, was brought to Chicago's front door on the lake shore, and there made a new start. Some of the people who had seen it when it was new were present, and many others who had heard of it when it was new were present. Some of the people who had seen it when it was new were present, and many others who had heard of it when it was new were present. Some of the people who had seen it when it was new were present, and many others who had heard of it when it was new were present.





THE DISCIPTIONAL BILL

Resolutions Further Explain What Kind of Work Is Wanted.

Washington, Sept. 9.—The Democratic caucus didn't do anything, but what members did do was to adopt resolutions explaining the Disciptional bill. The resolutions say that the bill is intended to provide for the payment of the expenses of the Government economically administered, and that the Democratic party is pledged to the passage of such a measure. The resolutions also declare that the bill is not intended to be a revenue measure, but that it is intended to provide for the payment of the expenses of the Government economically administered, and that the Democratic party is pledged to the passage of such a measure. The resolutions also declare that the bill is not intended to be a revenue measure, but that it is intended to provide for the payment of the expenses of the Government economically administered, and that the Democratic party is pledged to the passage of such a measure.
